General informations

▫Mandatory Helmet Requirement:

Outside built-up areas: A helmet is mandatory for all cyclists at all times.

Within built-up areas (cities and villages): There is no legal helmet requirement for adults.

For children: Children under the age of 15 are legally required to wear a helmet at all times and in all locations.

▫The achievable range of an e-bike depends on several factors and may vary considerably. These include the rider's pedaling effort, the selected assistance level, terrain and road surface, total weight, gear selection, weather conditions / temperature. Consequently, the stated maximum range should be regarded as an estimate rather than a guaranteed distance.

▫If you are renting a tricycle or tandem bicycle for the first time, a guided familiarization ride is required to ensure that you can operate the vehicle safely and comfortably. The fee for the supervised test ride is €25.00. Should you decide to rent the vehicle afterwards, €15.00 of this fee will be credited towards your rental.

▫You are welcome to test an e-bike or e-scooter before making a rental decision. During the test session, we will explain the vehicle's controls, features, and settings, and help you become familiar with its operation. The test ride costs €20.00, of which €10.00 will be deducted from the rental price if you subsequently rent the vehicle.

▫Upon request, we can deliver the rented vehicle to your preferred location and collect it again after the rental period. This service is charged at €80.00 per hour. The charge includes loading and unloading time as well as the travel time calculated according to the planned route. Please contact us by email to arrange this service.

▫The complete rental terms and conditions are defined in the attached rental agreement.
